SOFT SKILLS –TEAM BUILDING SKILLS FOR MANAGERS

15-12-2021 TO 18-12-2021

Mr.Kathikeya,M/s HANA Consulting, Hyderabad

With the number of Management graduates rising every year, employers are becoming critical and strategic in selection of the recruits. The corporate world nowadays not only looks for skills but also for the overall personality of its recruits. To bridge the gap between the requirements of the industry and the skills of the students, Soft Skills Development Program - "SOFT SKILLS –TEAM BUILDING SKILLS FOR MANAGERS "is being organized for Management Students by DMS CREC(A) on 15-12-2021 for 3 days. It aimed at inculcating and building upon the basic soft skills that are required by every student while appearing for the recruitment process of any company. Soft skills are identified as the most critical skills in the current global job market especially in the fast moving era of technology. These skills include Personal Interviews, SWOT (Strength Weakness Opportunity Threat) Analysis, Writing & Communication skills, Resume Writing, Group Discussions, Report writing and Presentation Skills. A total of 45 students participated and benefited from this program.

The expert Mr.Kathikeya was invited from M/s HANA Consulting, Hyderabad to deliver lectures to the students. The session on communication and writing skills enlightened the students about the importance of effective communication & team building and spoken dialect in the corporate filed. SWOT analysis session helped the students to identify their strengths and weaknesses while building the techniques to improve them. An insightful session on group discussions was also conducted. Also, a session on personal interviews was taken up where the students were taught the nuances of how to conduct themselves during an interview. The techniques of resume writing were also discussed to great extent as it gave an introduction on how to build a CV.

When asked the students for their feedback, while they gained knowledge from every session, they overtly enjoyed all the sessions. This Soft Skills Development Workshop gave them the opportunity to explore new ideas and improve their personality.

**HANDS-ON TRAINING-AN INTRODUCTION TO STATISTICAL METHODS AND
SPSS**

A REPORT DATED: 02-06-2022

Resource Person :Prof.Sharma Ret Prof SV University

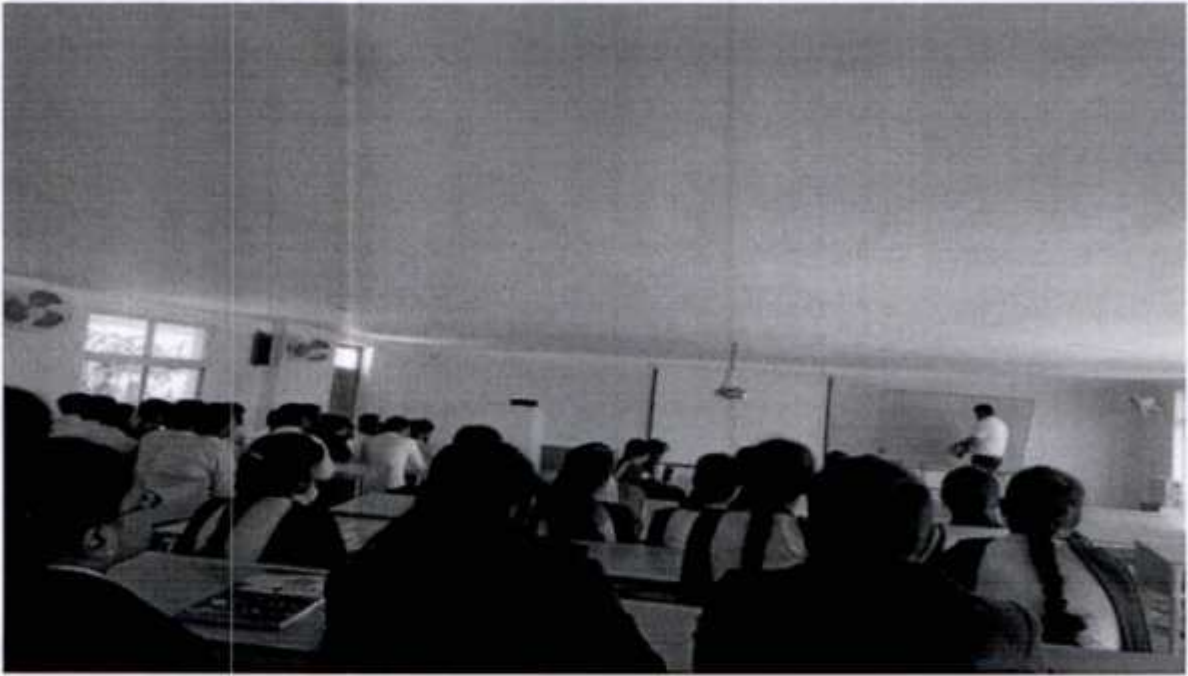

A Hands on training on the usage of Statistical Package for Social Sciences (SPSS) software was organized on 02-06-2022 by the Department of Management Studies. Prof.Sharma Ret Prof SV University was invited as a resource person.

The first session began with the introduction of types of data and scale of measurements. The speaker explained the importance of knowing the data type and data scale as this information is vital in selecting statistical techniques and methods for data analysis. After the interactive coffee break in the foyer area, the second session began with an introduction to SPSS software. All the participants were provided with workshop material as well as web-link to download trial version of the software in advance. This helped the participants to have a hands-on experience of the software. The speaker explained how to code and enter data and data filtration. He guided that in case of missing values, any of the following values can be used: mode, median, beta coefficients or closer moving average methods. Cross-tabulation, chi-square test statistic and hypothesis testing was also introduced and its importance and the reasoning was discussed in detail. Cramer's V was also introduced for data containing one binary variable and another non-binary.

Session 2 began with an introduction to measures of central tendency and tests of normality like the Kolmogrov-Smirno and Shapiro-Wills test. This was followed by understanding the difference between parametric and non-parametric tests. An intensive discussion on the role and importance of correlation began after the coffee break. The speaker introduced four methods of calculating correlation namely Karl Pearson, Spearman, Phi and Kendall's tau 'b'. Thereafter the session continued with a detailed discussion on formulation of hypothesis, application of t-test, one-way ANOVA, Mann Whitney test, Wilcoxon test, Kruskal Wallis test, KMO tests and the workshop ended with a brief discussion on Factor Analysis. A total of 45 MBA students & 12 faculty members participated and benefited from this program

ENTREPRENEURSHIP AWARENESS PROGRAM

by **Mr.Ram Murthy Deputy Director, District Industrial Centre (DIC), Tirupati**

on 07-05-2022

Objective of the Program

To spread the concept/thought of entrepreneurship to mass of the society CED conducts Entrepreneurship Awareness Programs for the final year students to inculcate the entrepreneurial culture and environment in such a way that students get encouraged opting for entrepreneurial career rather than searching for a job.

Under the umbrella of the ED CELL & III Cell, DMS CREC (A) has organized 1 day workshop on "ENTREPRENEURSHIP AWARENESS PROGRAM" on dated 7th July 2022. In the workshop more than 95 students from different discipline took part and gathered information regarding various topics of entrepreneurship.

Mr.Ram Murthy Deputy Director, District Industrial Centre (DIC) has delivered the speech on awareness about entrepreneurship. He covered below topics. 1. You want to be a businessman? 2. Which business you want to start? 3. How to setup business? 4. What help and facilities are available for the business? 5. How to manage the business successfully?

LIFE SKILLS –YOGA FOR HEALTH

10 Life Skills for a Healthy Life

17-06-2022 - 19-06-2022

Mr. Chaitanya, a Member of the Isha Foundation & Ms.Sai Lavanya Yoga Teacher

Mr. Chaitanya, a Member of the Isha Foundation was invited as chief guest at the event. He conducted and taught yoga with a Video demonstration of Sadgurus on Yoga and the Importance of yoga for humanity. Further, he enlightened all the participants on the Conscious Planet Movement, a global campaign launched by Sadguru, founder of Isha Foundation to inspire a conscious approach to saving our soil and planet. Dr. P. Ramesh Kumar Dean Academics, CREC (A), NSS officer Mr.Chengal Reddy and all the students and staff members of CREC (A) participated and benefited from this event. Ms.Sai Lavanya was invited as the chief guest. Dr.Neeraja .M, welcomed Ms.Lavanya Sai (yoga trainer). All the members were addressed about the theme of the program which focuses on dealing with the health issues, problems, and difficulties of everyday life. A total of 66 Btech CSE 2nd year Students and Management students attended the practical session of the event organized by Ms.Sai Lavanya a young professional Yoga Trainer. She guided various activities related to Yoga like Padmasan, Surya Namaskar, and other Yoga Asanas. She also put emphasis on various body stretching exercises and the importance of warming up before practicing any Yoga Asana. Staff members and students participated enthusiastically and practiced the guided activities. All were feeling very energetic and relaxed after the Yoga session. She encouraged everyone to practice yoga regularly to remain fit and improve concentration.

DMS-CREC always motivates its staff members and students to perform such activities with the help of which they can improve their health and focus. CREC always emphasizes physical activities with the help of which the body remains fit and one remains enthusiastic. Over the years, DMS-CREC has arranged many activities related to physical stamina and mental strength.

Principals

As part of Azadi Ka Amrit Mahotsav, the Government has decided to create awareness to 10 lakh students on IPR to further strengthen the IPR regime of our country which will boost the "Creative India, Innovative India" objective of the National IPR policy. Such initiative of outreach and promotion of IPR awareness is one of the foremost objectives of National IPR policy which will stimulate the generation of IPRs.

The objectives of National IPR Policy 2016 are to be implemented under the National Intellectual property Awareness Mission (NIPAM) and to safeguard the interest of the inventors by upgrading IP skills of faculty members and students.

In this context, the NIPAM has decided to conduct a "Free Online workshop on IPR- Patents & Designs filing process" for Educational Institutions, students in order to protect their inventions in association with organization.

Now, I take this opportunity to invite today speaker.

Shri. Devendra Kumar Deshmuk sir received B. Tech in Biomedical Engineering from National Institute of Technology, Raipur, in 2008, PG Diploma in Embedded System Design, from National Institute of Electronics and Information Technology (NIELIT), Calicut, in 2012 and M. Tech in Biomedical Engineering from Delhi College of Engineering, Delhi, in 2015

Worked as Contract Lecturer in NIT Raipur from 2009-2011

Currently working as Examiner of Patents & Designs, Group A Gazetted officer in Intellectual Property office Chennai, Government of India, since 2016.

Currently also designated as NIPAM officer for Intellectual Property awareness Mission.

Now I welcome Devendra Kumar Deshmukh to take over this session and enlighten us with his experience.

Thank you sir

Session is all yours

DEPARTMENT OF ELECTRONICS & COMMUNICATION ENGINEERING

Association of Electronics & Communication Heuristic Organization (ECHO)

A Report for

A Three Day Online Motivational Workshop on

“Carrier Guidance & Employability for Young Generations”

09th- 13th June, 2021

Career guidance plays a very important role in the lives of all individuals – Pathway to success for the students as it helps in setting future goals and chooses careers. Career guidance is much needed service to those who did not plan for their future at an early stage; more should be done to assist the younger generations in personal career development.

In this workshop we have planned to make students understand different career opportunities, procedure to appear those careers, different competitive exams and also planned to make them to understand the importance of having goal and passion and hard work to achieve the desired goal. The Career Guidance and placement cell organised various programmes and created a lot of career opportunities for the final year students in the academic year 2020-2021. Training programmes and workshops on higher study options and job opportunities were conducted for the UG students to equip them with better educational and career choices.

Soft skill training programmes The placement cell in association with various Departments organised Soft Skill development programmes to motivate the students. The department in association with Placement cell conducted soft skill development programme for the under graduate students on May 8th 2021. The programme was led by so many eminent speakers Mr. E. Suresh Kumar, Senior Manager (Manufacturing), Ashok Leyland Limited, Chennai, Mr. G. Ramesh Kumar, Senior Associate, Cognizant Technology Solution, Chennai, Mr. P. Saravanan, Senior Engineer, Hinduja Group of Company, Chennai and Dr. R. Karthick, Ph.D., Assistant Professor, Sethu Institute of Technology (A), Viruthunagar and his team. The programmes envisaged to help the students in recognising their present level of skills and help them in enhancing their potential. Personality development programmes The placement cell in association with the Department of Communicative English arranged personality development

DIRECTOR

Chadalawada Ramanamma Engineering College
(AUTONOMOUS)
TIRUPATI

programmes for the students of respective departments. The programmes focused on personal growth, interpersonal effectiveness and skills that are vital for placement and career growth. Career guidance programme - Pathway to Success A career guidance programme – Pathway to success for the final year students was organized to encourage the students of the department. The programme benefited the students to face interviews and gathered knowledge on aptitude skills. Guidance for Competitive examinations is provided by Placement Cell in association with Competitive Studies organized various activities to improve skills of students for preparing competitive examinations.

Career guidance plays a very important role in the lives of all individuals, as it helps in setting future goals and chooses careers. Career guidance is much needed service to those who did not plan for their future at an early stage; more should be done to assist the younger generations in personal career development. When students have a clear understanding of the best career choices for them, end result is better planning, more college enrollments, and a more productive society for the future. For this, the association is playing an important role by conducting career guidance seminars to all the students.

These sessions educated the students about how to design functional and chronological resumes and also empowered them to prepare themselves for job interviews. The students were enlightened about the available international fellowships and the procedure to apply for them. The registration link for this workshop is

Workshop on Python Programming

The workshop on "**python programming**" organized by Department of Electronics and Communication Engineering under ADVAITH-2K22, 2-day National Level Technical Fest at Chadalawada Ramanamma Engineering College (Autonomous), Tirupati from **09th April 2022** for all the B.Tech Students of various batches.

To explore the power and simplicity of python programming. This workshop was appreciated by all the students as they were able to add another programming language in their technical skillset. The trainer Dr. P. Rajesh Kumar is the team member of organization, has given the mix of theory and practical knowledge of python programming.

Dr. Bhaskar Patel, Principal & Director, KTEI inaugurated the workshop, also motivated the students with his speech and explained that these kind of workshops are beneficial for their upcoming placements and technical knowledge.

Bhaskar

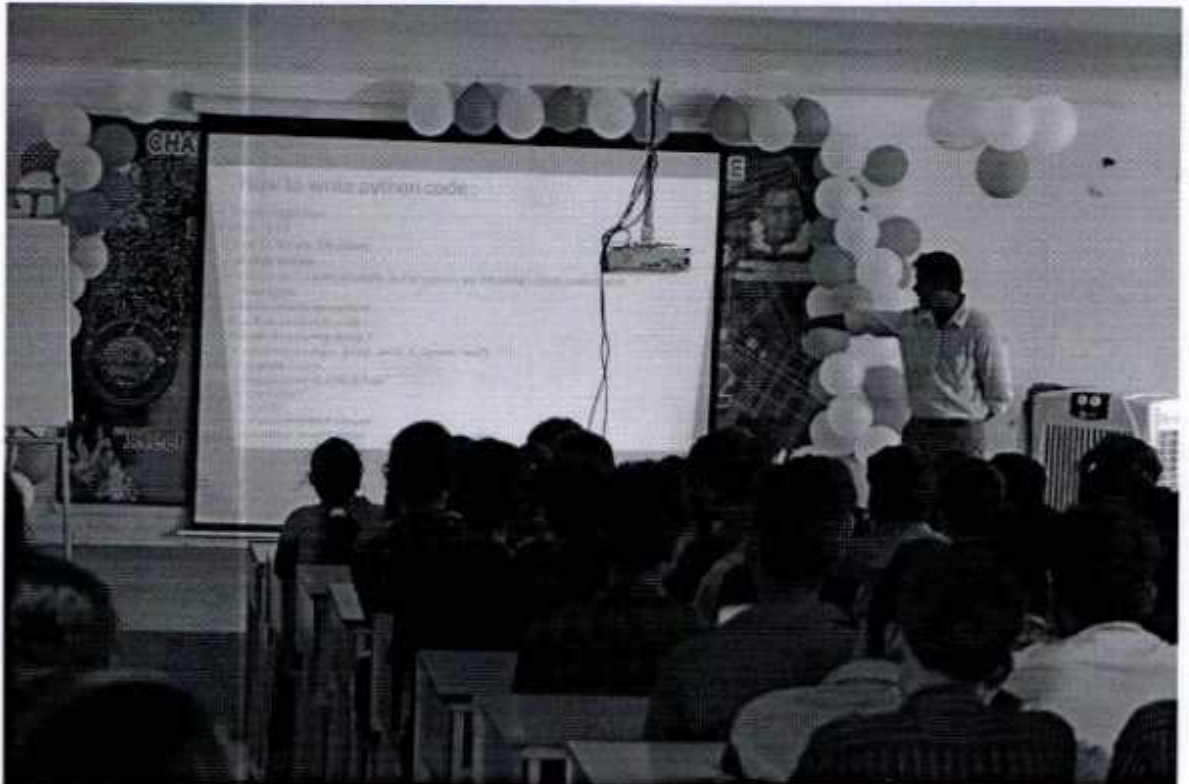

DIRECTOR

Chadalawada Ramanamma Engineering College
(AUTONOMOUS)
TIRUPATI

Introduction to python and students were taught that python is simple programming language compared to other programming languages, and the following topics were covered.

1. What is python?
2. Applications of python (web applications, web frameworks, GUI based desktop applications etc.)
3. Data types in python with programs.
4. Loops & conditions in python with programs.

Exception Handling, Multiple Exception Handling, information about Data Science in real life and how python is useful, Sample video based on Data Science which is performed by Dr. P.Rajesh Kumar sir.

Following topics were covered:

1. String manipulation.
2. Lists in python with program.
3. Tuples.
4. Dictionaries in python with program.
5. Sets in python.
6. Range, Functions, Variables in python.
7. Modules in python.
8. Introduction to data analytics.

DIRECTOR
Chudalawada Ramakrishna Engineering College
(AUTONOMOUS)
TIRUPATI

9. Applications of data analytics.
10. Connectivity of machine learning & artificial intelligence with data science.
11. Use of data science in real time applications.
12. M-2 and P&S are the base subjects to understand Data science.
13. Writing own programs on whether he/she is eligible for voting or not & program for calculator which does subtraction, multiplication, addition and operations etc.

Felicitation to Dr. P. Rajesh Kumar

Also the trainer of organization told the importance of basics in python and also shared his technical knowledge.

Dr. P. Krishna Murthy, Associate Professor & Head, Faculty members Dr. K. C. Kullayappa, Dr. P. Srinivasarao, Dr. G. Komala Yadav and Mr. S. Ali Asgar along with Mr. Rajiv, the Student of the department gave felicitation to Dr. P. Rajesh Kumar Sir and the vote of thanks to team on behalf of all the students.

At the end of workshop students were happy knowing that they were now able to program with a new & simple programming language Python.

Workshop on Internet of Things

The workshop on "Internet of Things" organized by Department of Electronics and Communication Engineering under ADVAITH-2K22, 2-day National Level Technical Fest at Chadalawada Ramanamma Engineering College (Autonomous), Tirupati from 10th April 2022 for all the B.Tech II & III Year students of the department.

This workshop was appreciated by all the students as they were able to add another programming language in their technical skillset. The trainer Dr. M. Vijaya Laxmi is the team member of organization, has given the mix of theory and practical knowledge of Internet of things.

Dr. Bhaskar Patel, Principal & Director, KTEI inaugurated the workshop, also motivated the students with his speech and explained that these kind of workshops are beneficial for their upcoming placements and technical knowledge.

As we know "The Internet of Things (IoT) is a system of interrelated computing devices, mechanical and digital machines, objects, animals or people that are provided with unique identifiers and the ability to transfer data over a network without requiring human-to-human or human-to-computer interaction.

The following were the projects done by students as a part of the workshop:

- LED interfacing using GPIO pins.

DIRECTOR
Chadalawada Ramanamma Engineering College
(AUTONOMOUS)
TIRUPATI

- Integrating sensors & reading environmental physical values.
- Live temperature and humidity monitoring
- Creating a WebApp for IOT
- Controlling home appliances like light using webserver
- Sending analog data on cloud server.

The workshop involved the concepts to be taught to the students:

1.INTRODUCTION TO IOT:

- What is Internet of Things ?
- Getting started with IoT
- Introduction to Internet of Things (IoT)
- Why as IOT?
- How IOT became 21st Century Hottest Topic
- How Internet of Things works
- How Things Talk to Internet

2.IOT ARCHITECHTURE

ESP8266 Node-MCU: Hardware Introduction

- what is ESP8266 node-MCU
- Hardware knowledge
- Handshake with ESP8266
- Developing the environment
- Overview about the board
- Popularity & scope

THE PIN DIAGRAM

- Introduction to PIN diagram
- Pin outputs and PIN inputs
- Feature that makes it difficult
- Analog and digital pinout

CONTROLLING THE DIGITAL OUTPUT ENVIRONMENT

Guest Lecture Report on Antennas & Wave Propagation

Guest Lecture was conducted by the department of ECE, Chadalawada Ramanamma Engineering College on 07.02.2022 from 09.30 am to 12.30 pm. Chief guest Prof. S. Narayana Reddy, Principal, Sri Venkateswara University College of Engineering, Tiruapti, has taken a lecture on topic "Antennas & Wave Propagation" for third year students in ECE Seminar Hall. He has published number of papers in National and International Journals. He has delivered lectures in various organizations and Universities. He also chaired technical session in National and International Conferences. Total of around 120 students and staff participated in this programme.

The speaker explains the Basics of Electromagnetics, Maxwell's theory, Production of an Electric wave and an alternating Magnetic field, magnetic wave generation, Maxwell's equations and discussed in detail Electromagnetics Applications like Antennas and Radars. The lecture also discussed about the possibilities and reach abilities of research and development in ECE field, opportunities in core technical areas with authenticated explanations.

The recent works on antenna projects handled by their team are discussed and finally research directions in the area of various technologies are shared with the participants. After his lecture the students were given time to interact with him. Students felt that the session was more informative and interactive. At the end of the guest lecture, two students gave their feedback, and explained how they were benefited.

FINANCIAL AWARENESS AND CONSUMER TRAINING

by Dr.J.Murthy SEBI Resource Person

Dated: 28-12-2020

The objective of this program is to spread the financial Literacy about the mutual funds and to analyze the capital market. The session stirred headfirst when Dr. Murthy,J started discussing about the various types of mutual funds based on structure; factors to be considered while investing in mutual funds -such as rate of return should be greater than inflation rate. Advantages, Disadvantages and Career Opportunities attached with mutual funds were also discussed - with growth of investment in mutual funds, there is an increase in demand of financial literate people who have expertise in this field as people need their guidance while investing. Provided awareness on NISM registration portal & certifications to clear for bright career in Share Market. To conclude, students got insight about what are mutual funds, its advantages and how this means can be effectively used in meeting various short term and long-term goals.A total of 95 students participated and received certificates upon successful completion of program.

Dear Sir/ Madam,

Greetings from National Centre for Financial Education(NCFE)

As you would be aware, the National Centre for Financial Education (NCFE), a body promoted by RBI, SEBI, IRDAI and PFRDA with the objective to promote Financial Education across India for all sections of the population. One of the key initiatives of NCFE is the Financial Awareness and Consumer Training (FACT) programme.

Financial Awareness and Consumer Training (FACT) is a programme by NCFE to provide financial education to young graduates and post graduates, on topics relevant to them, which will positively impact their financial well-being.

We will be covering the six topics in the session. We want to cover the objectives provided as follows:

1. Identify theft protection : What measures can be taken to safeguard your personal data in online transactions ?
2. Responsible use of credit card : How to avoid overusing credit card and get fraud purchase protection?
3. Education loan borrowing principles : Relaxations and repayment strategies of education loan
4. How to avoid impulse buying : How to make a proper budget before shopping?
5. Let's go cashless : Different modes of digital payments and know-how of these modes
6. Your first pay cheque : How to manage your income?
6. How to set the Financial Goals ?

We have received a registration from your college for conducting FACT programme in your college. Due to prevailing COVID-19 pandemic situation, NCFE will be conducting the FACT programme in an online/digital mode. The online programme is of 2 hours' duration and it involves no cost to the students or the college/ university. The benefits of facilitating the FACT to the students is that as soon as they graduate and join the workforce and take on more financial obligations for the first time, they will be aware of their rights and responsibilities as financial consumers. As a reward for conducting the FACT programme, the college will be registered with us and we will certify college for conducting the programme.

Our NCFE trainer, Dr. Murthy J will conduct the online FACT programme for Chadalawada Ramanamma Engineering College, Tirupati, Andhra Pradesh, on Monday, 28th December 2020 at 11:00 AM.

Contact details of Trainer: 9864286629

Email id of Trainer: deemurthymsa@gmail.com

Thanks and Regards,
Team NCFE Programmes

CLLOUD COMPUTING FOR MBA'S

BY Mr.Venkatesh chief adviser, cloud computing HP (Hewlett &Packard, Chennai) & Mrs.Rekha Rao Dated: 21-11-2020

This guest lecture was part of a series of guest lectures, seminars, and conferences planned for each academic session. In fact, DMS CREC (A) is organizing such lectures on a regular basis for providing exposure to the students as a part of co-curricular activities that complements the academic rigors as per R20 syllabi.

Mr.Venkatesh chief adviser, cloud computing HP (Hewlett &Packard, Chennai) explained that cloud computing is a type of Internet-based computing that provides shared computer processing, resources and data to computers and other devices on demand. He said that cloud computing and storage solutions provide users and enterprises with various capabilities to store and process their data.

Mrs.Rekha Rao stated that cloud computing allows companies to avoid up-front infrastructure costs as well as it enables organizations to focus on their core businesses instead of spending time and money on computer infrastructure. A total of 125 MBA, Btech students participated and benefited from this program.

A Report on 3-Day Online FDP on "Research Trends & Practical Applications on Machine Learning"

The department of Electronics and Communication Engineering had organized a 3-day online FDP on "Research Trends & Practical Applications on Machine Learning".

The FDP was conducted for three days from 10.00 AM to 11.30 AM and 2.00 PM to 3.30 PM every day. The various topics were covered by Resource Persons.

With an objective to acquaint the Faculty with knowledge of research trends and practical applications topics on Machine Learning that, a three day online FDP for Faculty members from 03rd to 05th June, 2021.

Opening remarks for the FDP was given by Dr. P. Krishna Murthy, Associate Professor & HOD, Department of Electronics and Communication Engineering, Chadalawada Ramanamma Engineering College, Tirupati, and Convener of the Program. He also gave a glimpse of ECE department activities and about FDP program.

The program was inaugurated by Dr. P.Sanjeev Rayudu, Principal, Chadalawada Ramanamma Engineering College (Autonomous), Tirupati along with an inaugural speech highlighting the importance of learning Machine Learning topics for the Faculty.

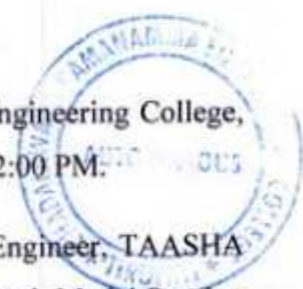

The program progressed with the inaugural lecture mainly focused on the Introduction to Machine Learning at 10:30 AM by Dr.B.Anuradha, Professor, Department of ECE, S.V.U. College of Engineering, Tirupati,

The next speaker was Dr.P.Anil Kumar, Associate Professor, CVR Engineering College, Hyderabad. He talked about practical applications on Machine Learning at 2:00 PM.

On Day 2 of the FDP, the speaker Dr.V.Chandra Sekhar, Research Engineer, TAASHA Technologies, Ahmedabad, his talk was based on Convolution Neural Network Model Pruning Technologies.

DIRECTOR

Chadalawada Ramanamma Engineering College
(AUTONOMOUS)
TIRUPATI

The next speaker was Dr.P.Satish Kumar, Senior Researcher, Ericsson, Chennai, talked about Reinforcement learning for Telcom applications.

On Day 3 of the FDP, the speaker Dr.Sahana Prabhu, Senior Researcher, Robert Bosch, Bangalore, talked about Deep learning for images and algorithms used.

The next speaker was Dr.S.Karthik, Postdoctoral Research Associate, LAR/LIAT, University of Lincoln, UK, talked about Deep Learning for computer Vision.

On the first of the workshop, Dr. P. Krishna Murthy, Associate Professor had explained the basics of C language. On Day 2 of the workshop, he explained the control statements and arrays with hands-on. Day 3 was engaged by Dr. Krishna Murthy himself on String handling and functions in C, pointers, structures and unions in C. He also gave students a few programming exercises to solve in the session. He spoke on dynamic memory allocation with few programming examples.

The last day of the workshop had a test for the students who were attended all the sessions which had different programming exercises and the students had attempted to those programming exercises. Mr. B. Chandrababu Naik, Assistant Professor, Department of Electronics and Communication Engineering had organized this workshop. The workshop had ended with knowledge on the different parameters which will be helpful for faculty members.

This led to the end of the series of lectures in the three days programme. A concluding session followed in which participants shared their experiences. Most of them talked about their enriching experience at the FDP. Thereafter Dr. P.Sanjeev Rayudu, Principal, gave his concluding remarks to the participants. At the end Dr. B.Chandrababu Naik gave the vote of thanks and concluded the three days faculty development programme.

A Report on A Two Day Workshop on
“EMERGING TRENDS IN SIGNAL PROCESSING USING MATLAB”
(Online Mode)
On
18th-20th May, 2021

MATLAB workshop mainly focuses on the student eager to learn about Matrix Laboratory which is a high-level language and interactive environment for numerical computation, visualization, and programming. Using MATLAB, a student can analyze data, develop algorithms, and create models and applications. The language, tools and built-in math functions provide to explore multiple approaches and reaches to solution faster than with spreadsheets or traditional programming languages. MATLAB can be used for a range of applications including signal processing and communications, image and video processing, control systems, test and measurement, computational finance, and computational biology. The duration of this workshop was three consecutive days with five hours session each day, in a total of ten hours properly divided into theory and hand on practical sessions.

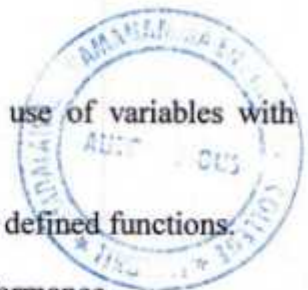

MATLAB workshop was arranged by Electronics and communication Engineering department on 18th to 20th May 2021, in Computation Laboratory for students as well as faculty members of all Department of ECE.

The speaker **Mr. P. Vikram Kumar** who is Application Science Engineer, Chennai in the company DesignTech Systems Ltd, started the session at 10.00 am.

The following points were covered with hands on training:-

- 1) **Basics of MATLAB:** MATLAB window, basic commands, use of variables with values, arrays, basic trigonometric functions, etc.
- 2) **Function in MATLAB:** defined, declared and used of the user defined functions.
- 3) **Plot the graphs** for given variable and check given system performance.
- 4) **Live Scrip editor:** It is used for series of MATLAB commands in a single interactive environment. Rn section in live script, create live script functions, etc. was explained.
- 5) **Simulink:** It is used to model the system and then simulates the dynamic behaviour of the system. Control system tools were used to simulate simple PID feedback control system.

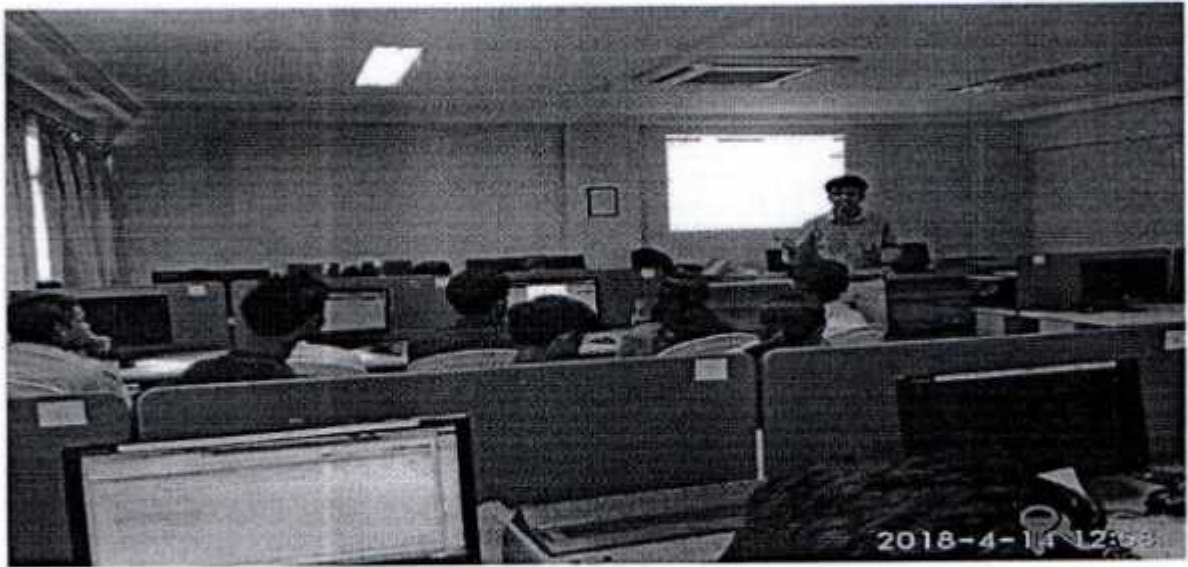

DIRECTOR
Chadalawada Ramanamma Engineering College
TIRUPATI

- 6) **Hardware support packages:** It covered how to install third party hardware and used for small projects. Camera, ARM, Arduino, Altera, National Instruments, Raspberry Pi, Xilinx, Android, STMicroelectronics, Keysight can be connected to MATLAB and through Simulink functionality we can implement good projects. For this Mathwork account is required.
- 7) **Machine learning and Artificial intelligence** can be used efficiently in MATLAB
- 8) **Exporting Script to presentation** was also explained.
- 9) Detailed Report with Photographs
- 10) Conclusions of the Workshop
- 11) List of participants
- 12) List of Guest Speakers and Speakers with their CV and Photograph
- 13) Feedback of the Participants
- 14) Receipts and Expenditure Statement
- 15) **Basics of MATLAB:** MATLAB window, basic commands, use of variables with values, arrays, basic trigonometric functions, etc.
- 16) **Function in MATLAB:** defined, declared and used of the user defined functions.
- 17) **Plot the graphs** for given variable and check given system performance.
- 18) **Live Scrip editor:** It is used for series of MATLAB commands in a single interactive environment. Rn section in live script, create live script functions, etc. was explained.
- 19) **Simulink:** It is used to model the system and then simulates the dynamic behaviour of the system. Control system tools were used to simulate simple PID feedback control system.
- 20) **Hardware support packages:** It covered how to install third party hardware and used for small projects. Camera, ARM, Arduino, Altera, National Instruments, Raspberry Pi, Xilinx, Android, STMicroelectronics, Keysight can be connected to MATLAB and through Simulink functionality we can implement good projects. For this Mathwork account is required.
- 21) **Machine learning and Artificial intelligence** can be used efficiently in MATLAB.
- 22) **Exporting Script to presentation** was also explained.

MATLAB workshop was successfully conducted in closed cooperation with all faculty members and students and concluded by 4PM. It was highly informative for both students and faculty and everybody liked and appreciated it.

Glimpse of MATLAB workshop:

Mr. B. Chandrababu Naik, Assistant Professor and Co-ordinator of the workshop gave the vote of thanks to team on behalf of all the students.

At the end of workshop students were happy knowing that they were now able to program with a new & simple programming language.

**Founder & CEO
Supraja Technologies**

He is a 28-year-old entrepreneur, one of the India's efficient Cyber Security Analyst and also he is an expert Digital Marketer as well. He is a digital marketer by profession and security enthusiast by passion. He primarily focuses on content building, testing and monetization of blogs. He has successfully developed many websites and done the security testing himself to ensure that the user's data is in safe hands and their privacy is protected. He is very active on social media and shares lot of tech stuff with his followers. The young student hacker has solved many issues with the vulnerabilities present in various websites and databases, given a solution in clearing the loopholes in order to protect the data to be leaked from the databases. Besides Ethical Hacking & Cyber Security, he also has a passion in Blogging & Digital Marketing.

While pursuing his engineering itself, he has trained many young generation people/students of more than 3500+ from various parts across Andhra Pradesh through his workshops, seminars, courses in Cyber Security and this makes him one of the youngest student trainers in India.

At the age of 20 he conducted his first workshop on Blogging & Ethical Hacking which was the beginning to his success in this field and right now he has handful of workshops to train students, government and corporate organizations as well in Andhra Pradesh & Telangana. He is the only student trainer who started conducting workshop for his peers and professors.

**MBA STUDENTS FOR FUTURE CORPORATE:
WHY SHOULD I PURSUE BUSINESS ADMINISTRATION**

On 28-01-2020

BY D.V.R. SESHADRI, CLINICAL PROFESSOR, IBS HYDERABAD

SDP focused on the use and importance of Blended learning in the education system especially for MBA graduates(a total of 80 students). In most cases, blended learning is the incorporation of digital learning in traditional classroom settings. After the COVID-19 pandemic there is a boom in blended learning approaches and so we as an educator adapt and implement new ICT technologies. It is imperative to learn and use modern tools and techniques in the education system to enhance understanding and to deal with uncertainties. The session has begun with the session of Dr. Sheshadri clinical Professor who delivered a talk on creating video content with tools- Hands-on practice. Later he shared tips on Presentation skills- How to make an effective presentation with advanced techniques. Further, he spoke on the Introduction to the Hybrid mode of learning to enhance the Quality of the Education system, Bloom's taxonomy, and its applicability in academic hands-on practice which was indeed an informative and participative session for everyone. Further, he shed light on MBA students for future corporate: why should I pursue Business Administration? The session was very interactive. Students felt energetic and inspirational after listening to Prof Inputs.

Report

Festo Mobiletainer – Innovation on wheels program in association with Andhra Pradesh State Skill Development Corporation (APSSDC) is organized for B.Tech IV, III & II year Mechanical Engineering Students on 21-08-2019.

Mr. Manoharan working as Senior Engineer at FESTO, Bangalore graced the occasion as a chief guest. In his talk the students were given brief idea on revolution from transforming current industry to Industry 4.0.

Industry 4.0 is the subset of the fourth industrial revolution that concerns industry. The fourth industrial revolution encompasses areas which are not normally classified as industry, such as smart cities for instance. industry 4.0 refers to the concept of factories in which machines are augmented with wireless connectivity and sensors, connected to a system that can visualise the entire production line, control, and make decisions on its own.

In his talk he also focused on the automation in industries with ant robots, fly robots and miniature devices which are involved in industry automation and are manufactured by FESTO company in Bangalore.

Students attended : B. Tech IV Year ME Students

Report

Workshop on "SOLIDEDGE" is organised in association with APSSDC by the department of Mechanical Engineering for one week for B.Tech -IV year - II Semester students from 19-08-2019 to 24-08-2019.

Mr. Pradeep. N, Engineer Technical Services, Design Tech Systems Limited, Vijayawada has attended as resource person for this workshop. In this workshop he discussed about importance and application of Solid edge software in the current industry.

The students were also given hands on practice sessions in solving examples by using the software.

Date conduction : 19-08-2019 to 25-08-2019

Name of the Coordinator : Mr. K. Suresh & Mrs. T. Nishkala

Students attended : B. Tech IV Year ME Students

Report

Workshop on "CNC Programming" is organised in association with APSSDC by the department of Mechanical Engineering for one week for B.Tech -IV year - I Semester students from 04-02-2019 to 09-02-2019.

Mr. P. Vamsi, JNTUA, Siemens Centre of Excellence, Anantapur has attended as resource person for this workshop. In this workshop he discussed about importance and application of CNC Programming in the current industry.

The students were also given hands on practice sessions in writing CNC programs, executing the programs for sample products by using the software.

WORKSHOP ON RESEARCH METHODOLOGY & SPSS

15-08-2019

Dr. Prof.Venkatesh Kumar, Associate professor, Pondicherry University

A Research Method is a systematic plan for conducting Research. There are both Qualitative and Quantitative Research Methods, including Experiments, Survey Research, Participant Observation and Secondary Data. Research Methods aim for a complete, detailed description of observations, including the context of events and circumstances. DMS CREC(A) has taken an initiative to invite Dr. Prof.Venkatesh Kumar, Associate professor, Pondicherry University as Resource Person to educate the teaching fraternity about Research Methodology.

Dr. Prof.Venkatesh Kumar, during his lecture said that Research is an experiment, investigating the cause and effect under highly controlled conditions. The Researchers have to test Hypothesis while conducting Research and conduct necessary surveys and canvas questionnaire to get information for their Research. He also explained about Research Methodology based on descriptions of qualitative and quantitative data. A total of 50 students and 5 faculty members of CREC(A) participated and benefited from the session.

The following feedback was received from the participants:

1. Participants felt that the delivery and presentation by the resource person was good.
2. 95% of the participants were of the opinion that the FDP coverage of topics brought practical knowledge of the subject.
3. 95% of the participants were of the opinion that the level of expertise of resource persons was good.
4. Participants felt that such an FDP should be arranged regularly

ENTREPRENEURIAL SKILL DEVELOPMENT PROGRAM

by **Dr.Harshavardhan.V, Dr.Anupama.G, and Dr.Neeraja.M** on 13/08/2019

The main objective of this **Entrepreneurial skill development program** is to create awareness among students of Dental, Pharmacy, Engineering, and Science courses about various facets of entrepreneurship as an alternative career option. The idea of organizing this workshop is to inculcate the fundamentals and key concepts of Entrepreneurship in Science and Technology among students. The program concluded with a valedictory session and a humble vote of thanks.

The main attractions of the program were as follows:

- Successful Entrepreneurs were invited for the expert lectures.
- Practicing Entrepreneur's success stories - common problems faced by Entrepreneurs Was discussed.
- Grant, funding, and loaning from banks, and agencies were discussed.
- improving communication skills (interacting with people) for better results was discussed.

Approximately about 95 students from different branches of engineering successfully participated in the program and each participant was awarded a certificate. The camp was successfully coordinated by the members of ED cell, under the leadership and direction of **Dr. Dr.Harshavardhan** towards conducting the event successfully

A Report on Printed Circuit Board Design Workshop

Date: 10th and 18th February 2020

Objective:

To enrich students with the knowledge of printed circuit board design and manufacturing process and also to enhance project oriented knowledge among them.

Details:

PCB Design workshop is conducted by ECE department of Chadalawada Ramanamma Engineering College in collaboration with the Young Minds Technology Solutions, Bengaluru. PCB Design workshop inauguration meeting is conducted on 10th February 2020. Honourable Chairperson, Krishnateja group of institutions Dr. C. Sucharitha was the chief patron for the function. The Meeting was attended by the R & D Director Dr. A. Mohan Babu, Principal Dr. S Mallikarjunaiah, ECE department HOD and convener of the event Dr. V. Thrimurthulu, Young Minds Technology Solutions Project Manager Mr. Yogananda Reddy and team, Other Department Heads, Workshop co-ordinator Mr R. Ravi Kumar, Faculty and more than 300 students from various engineering colleges. The Event started at 9.30 AM with the lamp lightening and prayer song.

Dr. C. Sucharitha addressed the gathering and instructed the students that participating in this workshop enhances technical knowledge and innovative skills. Dr. A. Mohan Babu advised students for active participation in these kinds of workshops where they get a practical hands-on experience thereby giving an exposure on designing various electronic circuits. Dr. S Mallikarjunaiah suggested that participation in this workshop helps them in upgrading their skills in the core domain in the field of chip design. Dr. V. Thrimurthulu appreciated the students for the huge participation and directed them to focus on learning the printed circuit board design in detail manner. The inauguration concluded by 11.00 AM.

The participation in this workshop trains the students to meet the industrial requirements. The first day of the Workshop comprised a theory session, followed by designing of the electronic circuit using software module involving simulation and synthesis. Day two focused on hardware implementation of the circuit involving ironing, drilling, etching, cleaning, soldering and testing. Valedictory of the event was conducted on 10th February 2020 at 3.30 PM. Students gave their feedback on the workshop. Students felt the workshop is

 DIRECTOR
 Chadalawada Ramanamma Engineering College
 (AUTONOMOUS)
 TIRUPATI

quite useful in improving their circuit designing and implementation skills. The participation certificates were issued and finally the event was concluded with vote of thanks by the Workshop co-ordinator Mr S. Ali Asgar.

Highlights:

- More than 300 students participation for the workshop
- Hands-on experience in various electronic circuits design and fabrication
- Valuable advices from the Chairperson
- Excellent training by Young Minds Technology Solutions, Bengalure

SEMINAR WOMEN ENTREPRENEURSHIP

09/07/2018

Resource Person: Mrs. NP Komala Raveendra. By Dr. Komala Raveendra, Founder director, RK Group of Institutions, Crew Aarkay solutions, and private ltd. & Srivtsava.

The initial phase of the seminar was partial towards pleasantries which included self-introductions by the participants of the seminar. The guest speakers for the day were Mrs. NP Komala Raveendra. & Srivtsava.

Briefly, their speeches can be highlighted in the following words: Ordeals, Perseverance and Balance. Both primarily focused on their respective reasons to pursue their career. Though their reasons may have differed but what remained identical in both pursuits according to them was- to establish an identity of their own, which does not thrive on the glory of their ancestral heritage or fortunes. Returning to the three words that define their speeches, in this regard similar stories were retold. They mentioned the ordeals they had to face and how they overcame them with perseverance, without neglecting their role towards their family, thus keeping the balance.

They also mentioned social stereotypes, some of which may not be chauvinistic but stereotypes nonetheless. Alas, they had their own unique tales to tell and their merry endings, giving us advice and suggestions in the form of insight. A total of 85 students participated and benefited from the session.

THOUGHT-PROVOKING SEMINAR ON TRANSFORMATIONAL LEADERSHIP

8/8/2018

The session was "Thought-Provoking Seminar on Transformational Leadership. The main objective of the session was to provide valuable insights to enable students to identify actions that set the stage for a leader's success in an organization.

The Resource Person was **Alok Bhattacharya, Amaraja Batteries, Tirupati**. The topics covered for the session were Leadership Skills for Growth and Development, Personality Development, How to Develop Personality, Leadership Styles, Managers v/s Leaders, Importance of Developing Leadership Skills, Leadership Core Values, and Steps to Become a Good Leader.

92 students attended the session, which ended at 12:30 pm with the Vote of Thanks proposed by Dr. Prasuna HoD, DMS CREC(A). The session was coordinated by Asst. Prof. Yamuna and Sujatha.

CHADALAWADA RAMANAMMA ENGINEERING COLLEGE (AUTONOMOUS)

Department of ELECTRONICS AND COMMUNICATION ENGINEERING Report on Printed Circuit Board Design Workshop

Date: 28th and 29th August 2018

Objective:

To enrich students with the knowledge of printed circuit board design and manufacturing process and also to enhance project oriented knowledge among them.

Details:

PCB Design workshop is conducted by ECE department of Chadalawada Ramanamma Engineering College in collaboration with the Young Minds Technology Solutions, Bengaluru. PCB Design workshop inauguration meeting is conducted on 28th August 2018. Honourable Chairperson, Krishnateja group of institutions Dr. C. Sucharitha was the chief patron for the function. The Meeting was attended by the R & D Director Dr. A. Mohan Babu, Principal Dr. S Mallikarjunaiah, ECE department HOD and convener of the event Dr. V. Thrimurthulu, Young Minds Technology Solutions Project Manager Mr. Yogananda Reddy and team, Other Department Heads, Workshop co-ordinator Mr R. Ravi Kumar, Faculty and more than 300 students from various engineering colleges. The Event started at 9.30 AM with the lamp lightening and prayer song.

Dr. C. Sucharitha addressed the gathering and instructed the students that participating in this workshop enhances technical knowledge and innovative skills. Dr. A. Mohan Babu advised students for active participation in these kinds of workshops where they get a practical hands-on experience thereby giving an exposure on designing various electronic circuits. Dr. S Mallikarjunaiah suggested that participation in this workshop helps them in upgrading their skills in the core domain in the field of chip design. Dr. V. Thrimurthulu appreciated the students for the huge participation and directed them to focus on learning the printed circuit board design in detail manner. The inauguration concluded by 11.00 AM.

The participation in this workshop trains the students to meet the industrial requirements. The first day of the Workshop comprised a theory session, followed by designing of the electronic circuit using software module involving simulation and synthesis. Day two focused on hardware implementation of the circuit involving ironing, drilling, etching, cleaning, soldering and testing. Valedictory of the event was conducted on 29th August 2018 at 3.30 PM. Students gave their feedback on the workshop. Students felt the workshop is quite

DIRECTOR

Chadalawada Ramanamma Engineering College
(AUTONOMOUS)
TIRUPATI

useful in improving their circuit designing and implementation skills. The participation certificates were issued and finally the event was concluded with vote of thanks by the Workshop co-ordinator Mr R. Ravi Kumar.

Highlights:

- More than 300 students participation for the workshop
- Hands-on experience in various electronic circuits design and fabrication
- Valuable advices from the Chairperson
- Excellent training by Young Minds Technology Solutions, Bengalure

Activity Report 2019

Event: A Three Day workshop **Target Group:** II Year

Title: Embedded Systems

Date: 7th-9th January 2019

Support Organization: APSSDC, AP

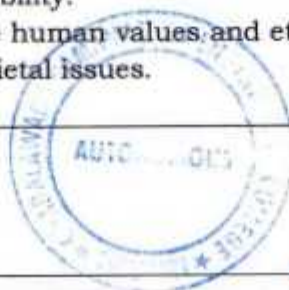

Resource Persons:

- Macharla Umamaheswara Rao
- Bhanu Chandar Reddy.T
- Chevvakula Santhosh

Number of participants: 107

Institution Vision	To be a top notch institution, imparting quality education in technology and management to produce globally competent professionals and address socio-economic issues through research and innovation.
Institution Mission	<ol style="list-style-type: none"> 1. Continuously update curricula and teaching learning process to meet the needs of industry and promote entrepreneurship. 2. Inculcate research, development and innovation culture among students and faculty. 3. Capacity to work in diverse fields and cultures with ethical practices to address socio-economic issues.

Department Vision	To produce competent professionals in Electronics and Communication Engineering by imparting core values and Entrepreneurial skills to meet global needs.
Department Mission	<ol style="list-style-type: none"> 1. To equip the strong concepts and strengthen core competencies among the learners through experiential curriculum 2. To promote scientific temperament among students to enhance the employability. 3. To inculcate human values and ethics to make learners sensitive towards societal issues.

Workshop

Programme Outcome

- **WPO1:** The participants will design, build and test a micro controller-based embedded system.
- **WPO2:** The participants will use an 8051 with several sensors and actuators; capture, visualize and analyze working using Proteous tool.
- **WPO3:** The focus of project will be to design the system so that it can be built on a low-cost budget for a real-world application.
- **WPO4:** The project will include some core requirements, but leave room for creativity in how to approach the project. In the end, student will produce a unique final project, suitable for showcasing to future potential, may lead to patenting and product.

Workshop Outcome: PSO

Programme Details

The Head of the Department and Co coordinators inaugurated with a simple introduction about the workshop.

The resource persons started the day 1 schedule with the basic concepts about Embedded Systems and also taught students about installation of Proteous software and Keil software.

Day 2 and day3 sessions also continued from 9:00 AM to 5:00PM with several keil programming examples and with embedding programme from keil to Proteous tool.

Students designed projects like display with 7 segments LED, interfacing to 4 Motors and running in different directions, Message display by interfacing liquid crystal display etc., Using Embedded C programming .

A Two Week Workshop on

Basics of Programmable Logic Controller-18th-30th March 2019

(In Association with APSSDC & SIEMENS and in Co-ordination with Designtech Systems Ltd)

Department of Electronics & Communication engineering has organized a two week workshop on "Basics of Programmable Logic Controller" from 18.03.2019 to 30.03.2019 in association with APSSDC & SIEMENS and in Co-ordination with DesignTech Systems Pvt Ltd (Pune). The workshop is aims to introduce of Basic Programmable Logic Controller by providing fundamental knowledge of simple hardware, software and firmware aspects. It focus on delivering the inevitability and prominence of industrial automation through PLCs using Siemens TIA (Totally integrated automation) and Ladder logic programming application. It helps to connect the Engineering students to discuss on PLC controllers and all aspects of industrial requirements. The program is planned for IIIrd ECE Students. A total of 112 student (from IIIrd ECE A & B sections) had been participated in the workshop. The program is scheduled for IIIrd ECE B from 18.03.2019 to 23.03.2019 and for IIIrd ECE A from 25.03.2019 to 30.03.2019. The program is inaugurated on 18.03.19 at 7.40AM in ECE Seminar hall. For this program, Dr.S.Mallikarjunaiah, Principal, Dr. V.Trimurthulu, HoD, ECE, Mr. D. Damodaram, HoD, FME, Mr. K.Sivakumar, HoD, EEE, Mr.T.Rameshwar, Mr. B.Satheesh, resource persons, Mr. K.Mallesh, Scientist B, ETDC Hyderabad and all ECE faculty and IIIrd ECE students were participated. All the dignitaries has addressed the students by explaining the importance of industry assisted workshop and advised to participate in the program with good zeal. After the completion of inaugural function, the workshop session was initiated at 8.20AM in Simulation lab. The following are the concepts that are been delivered in the workshop for over the entire week:

1. Introduction to Industrial automation.
2. PLC controllers and the IC family details
3. Bit Logic Operation with TIA Portal
4. Timers, Counter and Comparator operation
5. Math Functions
6. Analog Value Processing

Siemens TIA (Totally integrated automation) and Ladder logic programming application are introduced and students are trained with basic PLC programs. The students involved in the workshop with full interest and enthusiasm. Day wise history card, applications and feedback collected and are delivered to JNTUA, Anantapur for certification. On 30.03.2019 the program valedictory function is organized. Students had shared their experiences about the workshop. The resource persons are felicitated by Dr.V.Trimurthulu, HoD, ECE and all department faculty.

A 6 Day Workshop Program

On

"Data Structures and algorithm"

Mar 25-30, 2019

Program Schedule

DAY-1 25.03.19 (Monday)	9.00 AM - 9.30 AM	Registration	
	9.30 AM - 10.00 AM	Inauguration	
		TOPICS	Resource Person(s)
	10.00 AM - 11.30 AM	<ul style="list-style-type: none"> Data Types. Abstraction. Data abstraction and Abstract Data Types (ADTs). 	K. Narmadha, & N.Ravi Kumar, SoftwarTrainee In association with APSSDC CMSkill Excellence Center
	11.45 AM - 1.15 PM	<ul style="list-style-type: none"> Friend functions. Operator overloading. Exception handling. Memory allocation and deallocation. 	
	2.30 PM - 3.30 PM	<ul style="list-style-type: none"> Encapsulation. Inheritance. Polymorphism. Virtual functions. 	
3.30 PM - 4.30 PM	<ul style="list-style-type: none"> Templates. Function and class templates. Programming using class and function templates. 		
DAY-2 26.03.19 (Tuesday)		TOPICS	Resource Person(s)
	09.30 AM - 11.00 AM	<ul style="list-style-type: none"> Standard Template Library (STL). Components of STL. 	K. Narmadha, & N.Ravi Kumar, SoftwarTrainee In association with APSSDC CMSkill Excellence Center
	11.15 AM - 12.45 PM	<ul style="list-style-type: none"> Basic data structures. Arrays. Static arrays and Dynamic arrays. 	
	2.00 PM - 3.30 PM	<ul style="list-style-type: none"> List ADT. Implementation using arrays (static and dynamic). Basic operations on a List 	
3.30 PM - 4.30 PM	<ul style="list-style-type: none"> Linked-List. Singly linked-lists. Implementation using pointers. Basic Operations 		
DAY-3 27.03.19 (Wednesday)		TOPICS	Resource Person(s)
	09.30 AM - 11.00 AM	<ul style="list-style-type: none"> Stacks and Queues. Behavior of a Stack. Basic operations on a Stack. 	K. Narmadha, & N.Ravi Kumar, SoftwarTrainee In association with APSSDC CMSkill Excellence Center  DIRECTOR Chadalawada Ramanamma Engineering College (AUTONOMOUS) TIRUPATI
	11.15 AM - 12.45 PM	<ul style="list-style-type: none"> Array-based stacks. Linked-list based implementation. Expression evaluation using a stack. 	
	2.00 PM - 3.30 PM	<ul style="list-style-type: none"> Queues. Behavior of a queue. Basic queue operations Study implementations using an array and a linked-list. 	
	3.30 PM - 4.30 PM	<ul style="list-style-type: none"> Tree data structure. Binary and nonbinary trees. 	

		TOPICS	Resource Person(s)
DAY-4 28.03.19 (Thursday)	09.30 AM - 11.00 AM	<ul style="list-style-type: none"> Structure of a binary tree. Definitions and properties. Traversing a binary tree. Study binary tree implementation 	K. Narmadha, & N.Ravi Kumar, SoftwarTrainee In association with APSSDC CMSkill Excellence Center
	11.15 AM - 12.45 PM	<ul style="list-style-type: none"> Binary Search Tree (BST). Organizing data in a BST. Inserting and deleting items in a BST. 	
	2.00 PM - 3.30 PM	<ul style="list-style-type: none"> Algorithm analysis. What to analyze. Analysis techniques. Efficiency of algorithms. 	
	3.30 PM - 4.30 PM	<ul style="list-style-type: none"> Searching and Hashing algorithms. Search algorithms - Sequential Search, Ordered lists, binary search. 	
		TOPICS	Resource Person(s)
DAY-5 29.03.19 (Friday)	09.30 AM - 11.00 AM	<ul style="list-style-type: none"> Sorting algorithms. Sorting an array of elements. 	K. Narmadha, & N.Ravi Kumar, SoftwarTrainee In association with APSSDC CMSkill Excellence Center
	11.15 AM - 12.45 PM	<ul style="list-style-type: none"> Study various algorithms and their efficiency. 	
	2.00 PM - 3.30 PM	<ul style="list-style-type: none"> Explore how a generic Vector container is used to manipulate data. 	
	3.30 PM - 4.30 PM	<ul style="list-style-type: none"> Standard Template Library (STL). Components of STL. 	
		TOPICS	Resource Person(s)
DAY-6 30.03.19 (Saturday)	09.30 AM - 11.00 AM	<ul style="list-style-type: none"> Sets, including union/find algorithms 	K. Narmadha, & N.Ravi Kumar, SoftwarTrainee In association with APSSDC CMSkill Excellence Center
	11.15 AM - 12.45 PM	<ul style="list-style-type: none"> Sorting and searching 	
	2.00 PM - 3.30 PM	<ul style="list-style-type: none"> Searching and Hashing algorithms. 	
	3.30 PM - 4.30 PM	<ul style="list-style-type: none"> Study binary tree implementation

Outcomes

Two day SDP on

"Advance concepts in cloud computing"

21-01-2019 to 22-01-2019

1. Define Cloud Computing and memorize the different Cloud service and deployment models
2. Describe importance of virtualization along with their technologies.
3. Use and Examine different cloud computing services
4. Analyze the components of open stack & Google Cloud platform and understand Mobile Cloud Computing
5. Describe the key components of Amazon web Service
6. Design & develop backup strategies for cloud data based on features.

A ONE-DAY WORKSHOP ON RESEARCH METHODOLOGY

16-11-2017

The objective of this program is to hone the research skills of faculty members & students of Management and Information Technology education. It is an endeavor intended for teachers and students. The major focus of the workshop is on upgrading the teaching, training, and research skills of the teachers with recent developments and advancements. Dr. Sharad Joshi Prof (statistics), Bangalore was Invited as guest speaker. In this program a total 65 & 18 faculty members of Krishna teja Institutions participated with great enthusiasm and benefited from the learning's and the experiences shared by the various resource persons.

AWARENESS SESSION ON IPR

15/02/2017

by Dr.K. Pavan Kumar, Professor, Dept. of Law, Anantha College of Law, Tirupati

One-day Awareness Session on "Intellectual Property Rights (IPR)" by Dr.K. Pavan Kumar, Professor, Dept. of Law, Anantha College of Law, Tirupati was organized by DMS CREC(A) on 15-02-2017.

The resource person has elaborately outlined the importance of IPR in today's environment. He spoke on the need to know about the IPR as the definition of assets has grown from material to Non-material. In general, Intellectual Property Rights (IPRs) is concerned with the protection of Tangible and intangible property. It provides material awards and recognition to the inventors and Contributors for their investment. Hence, it enhances motivation to disseminate scientific and Technological information in turn stimulates research and development for the improvement of the quality of life.

During this session, the following points were discussed:

1. Introduction of Intellectual Property Rights.
2. Law governing IP Meaning
3. Types of IP a. Patent b. Trademark c. Copyright
4. Infringement

The economic functioning of IPR can be thought of as the minimization of transaction costs (search, bargain, and enforcement) and the optimization of time to fruition and avoidance of duplication. One can agree that the first best IPR policies are not only to minimize the transaction costs and conflict of interests but they provide incentives to invest in innovation which in turn maximizes the wealth of a nation.

However, changes in the scope of "property" (knowledge commodity, information technology, cosmic space, etc), the prevalence of complex IPR legislation(s), and management institutional mechanism(s) necessitate the acceleration of IPR policies in a developing country like India, by way of sustained research, information, education, and advocacy.

The lecture was full of knowledge as most of the faculty members were unaware of this Intellectual Property Rights procedure of filling the patents. The lecture concluded with an interactive question-answer session and the faculty were satisfied.

The DMS CREC(A) proposes to organize more no. of programs on IPR especially patents, trademark registrations, and copyright law as having awareness of these areas is mandatory for a successful carrier both for individuals and organizations. A total of 95 MBA students participated and benefited from the session.
